

Datavideo Mobile Studios place your switcher, monitor, communications and support gear into one convenient package that can be shipped or travel with you. Every Datavideo switcher is available in a Mobile Studio configuration, which includes the switcher, monitors, intercom, tally lights, a hard drive recorder and an internal power distributor. Custom Mobile Studios made to your own specifications are also available, shipping within 2 weeks of your order. All Mobile Studios are tested to ensure quality.

Datavideo Hand-carried Studios (HS) are collapsible, portable units optimized for light weight and travel. Our SE-500, SE-800 and SE-1000 switchers are available in the HS configuration.
